#### **DURABLE:**

With heavy-duty bearings in a cast iron bearing housing, a welded steel spider and shaft, and a rugged frame design that has been proven over two decades, Dexter washers are built to last.

Every model is designed to withstand our 1,000 hour out-of-balance test.

The polished chrome doors and highquality stainless steel tub, cylinder, top, and front keep washers looking great year after year.

#### **RELIABLE:**

Our industry leading 10-year warranty covers the frame, tub, cylinder, shaft, seals, bearings, and bearing housing.

A 5-year parts warranty covers the rest.

We stand behind every machine you invest in with lifetime technical support.

#### **EFFICIENT:**

X-Series reduces water usage and saves on expenses with adjustable water level options and a **leak detection system**. The water levels can be controlled remotely and DexterLive will provide alerts if a water leak occurs.

Next generation inverter drives lower electrical usage, improve performance, and extend the life of the motor.

Standard 100G extraction removes more water and enhances wash performance.

### **INSTALLATION:**

Adjustable final extract speeds and other customizable options allow Dexter washers to fit almost any installation.

#### PROFITABLE:

Every Dexter machine offers a simple user interface with multiple language options, and detailed customer prompts.

X-Series controls work with DexterLive to allow you to create custom programs that fit your business needs and provide easy connect to DexterPay via QR code.

A variety of PLUS cycle features and promotion options will help you maximize revenue generation.
